MCLEAN, Va.--(BUSINESS WIRE)--Jul. 30, 2018-- Booz Allen Hamilton Holding Corporation (NYSE: BAH), the parent company of management and technology consulting and engineering services firm Booz Allen Hamilton Inc., today announced preliminary results for the first quarter of fiscal 2019.

The Company delivered strong first quarter results that support its fiscal year 2019 guidance, as well as the investment thesis detailed at Booz Allen's Investor Day in June.

"We are capitalizing on the unique position in the market that we have created by transforming Booz Allen over the past six years," said Horacio Rozanski, President and Chief Executive Officer. "Our clients now have the resources to do what they have wanted and needed to do for several years: integrate leading-edge technology into their most important missions."

The Company reported first-quarter revenue growth of 8.1 percent, and a 9.2 percent increase in revenue, excluding billable expenses.<sup>1</sup> The strong top-line growth contributed to a 25.1 percent increase in Adjusted EBITDA<sup>1</sup> to \$177.8 million, and Adjusted EBITDA margin on revenue<sup>1</sup> was 10.8 percent. Adjusted diluted earnings per share<sup>1</sup> for the quarter was \$0.72, up 53.2 percent.

Total backlog increased by 21.4 percent over the prior year period to \$17.1 billion, and the book-to-bill ratio for the first quarter was 1.64. Headcount was 4.7 percent above the end of the prior year period, with a slight sequential decline in the first quarter.

The Company adopted two accounting standards, ASC 606 and ASU 2017-07, both effective April 1, 2018; accordingly, the first quarter fiscal 2018 results have been restated. Adoption of these two standards is factored into fiscal 2019 guidance and is not expected to be material to full-year results. Additional information on the revenue and operating income impacts of adopting these accounting standards is available in the Company's Form 10-Q for the first quarter of fiscal 2019.

The Company declared a regular quarterly dividend of \$0.19 per share, which is payable on August 31, 2018, to stockholders of record on August 14, 2018.

#### **Non-GAAP Financial Information**

"Revenue, Excluding Billable Expenses" represents revenue less billable expenses. Booz Allen uses Revenue, Excluding Billable Expenses because it provides management useful information about the Company's operating performance by excluding the impact of costs that are not indicative of the level of productivity of its consulting staff headcount and its overall direct labor, which management believes provides useful information to its investors about its core operations.

"Adjusted Operating Income" represents Operating Income before: (i) adjustments related to the amortization of intangible assets resulting from the acquisition of our Company by The Carlyle Group (the "Carlyle Acquisition"), and (ii) transaction costs, fees, losses, and expenses, including fees associated with debt prepayments. Booz Allen prepares Adjusted Operating Income to eliminate the impact of items it does not consider indicative of ongoing operating performance due to their inherent unusual, extraordinary or non-recurring nature or because they result from an event of a similar nature.

"Adjusted EBITDA" represents net income before income taxes, net interest and other expense and depreciation and amortization before certain other items, including transaction costs, fees, losses, and expenses, including fees associated with debt prepayments. "Adjusted EBITDA Margin on Revenue" is calculated as Adjusted EBITDA divided by revenue. "Adjusted EBITDA Margin on Revenue, Excluding Billable Expenses" is calculated as Adjusted EBITDA divided by Revenue, Excluding Billable Expenses. Booz Allen prepares Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, and Adjusted EBITDA Margin on Revenue, Excluding Billable Expenses to eliminate the impact of items it does not consider indicative of ongoing operating performance due to their inherent unusual, extraordinary or non-recurring nature or because they result from an event of a similar nature.

"Adjusted Net Income" represents net income before: (i) adjustments related to the amortization of intangible assets resulting from the Carlyle Acquisition, (ii) transaction costs, fees, losses, and expenses, including fees associated with debt prepayments, (iii) amortization or write-off of debt issuance costs and write-off of original issue discount, (iv) release of income tax reserves, and (v) re-measurement of deferred tax assets and liabilities as a result of the Tax Cuts and Jobs Act (the "2017 Tax Act") in each case net of the tax effect where appropriate calculated using an assumed effective tax rate. Booz Allen prepares Adjusted Net Income to eliminate the impact of items, net of tax, it does not consider indicative of ongoing operating performance due to their inherent unusual, extraordinary or non-recurring nature or because they result from an event of a similar nature. We view net income excluding the impact of the re-measurement of the Company's deferred tax assets and liabilities as a result of the 2017 Tax Act as an important indicator of performance consistent with the manner in which management measures and forecasts the Company's performance and the way in which management is incentivized to perform.

"Adjusted Diluted EPS" represents diluted EPS calculated using Adjusted Net Income as opposed to Net Income. Additionally, Adjusted Diluted EPS does not contemplate any adjustments to net income as required under the two-class method of calculating EPS as required in accordance with GAAP.

"Free Cash Flow" represents the net cash generated from operating activities less the impact of purchases of property and equipment.

Booz Allen utilizes and discusses in this release Revenue, Excluding Billable Expenses, Adjusted Operating Income, Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, Adjusted EBITDA Margin on Revenue, Excluding Billable Expenses, Adjusted Net Income, and Adjusted Diluted EPS because management uses these measures for business planning purposes, including managing its business against internal projected results of operations and measuring its performance. Management views Adjusted Operating Income, Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, Adjusted EBITDA Margin on Revenue, Excluding Billable Expenses, Adjusted Net Income, and Adjusted Diluted EPS as measures of the core operating business, which exclude the impact of the items detailed in the supplemental exhibits, as these items are generally not operational in nature. These supplemental performance measures also provide another basis for comparing period to period results by excluding potential differences caused by non-operational and unusual or non-recurring items. Management also utilizes Revenue, Excluding Billable Expenses because it provides management useful information about the Company's operating performance by excluding the impact of costs that are not indicative of the level of productivity of its consulting staff headcount and its overall direct labor, which management believes provides useful information to its investors about its core operations. Booz Allen also utilizes and discusses Free Cash Flow in this release because management uses this measure for business planning purposes, measuring the cash generating ability of the operating business and measuring liquidity generally. Booz Allen presents these supplemental measures because it believes that these measures provide investors and securities analysts with important supplemental information with which to evaluate Booz Allen's performance, long term earnings potential, or liquidity, as applicable, and to enable them to assess Booz Allen's

performance on the same basis as management. These supplemental performance measurements may vary from and may not be comparable to similarly titled measures by other companies in Booz Allen's industry. Revenue, Excluding Billable Expenses, Adjusted Operating Income, Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, Adjusted EBITDA Margin on Revenue, Excluding Billable Expenses, Adjusted Net Income, Adjusted Diluted EPS, and Free Cash Flow are not recognized measurements under GAAP and when analyzing Booz Allen's performance or liquidity, as applicable, investors should (i) evaluate each adjustment in our reconciliation of revenue to Revenue, Excluding Billable Expenses, operating income to Adjusted Operating Income, net income to Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, Adjusted EBITDA Margin on Revenue, Excluding Billable Expenses, Adjusted Net Income, and Adjusted Diluted Earnings per Share, and net cash provided by operating activities to Free Cash Flow, (ii) use Revenue, Excluding Billable Expenses, Adjusted Operating Income, Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, Adjusted EBITDA Margin on Revenue, Excluding Billable Expenses, Adjusted Net Income, and Adjusted Diluted EPS in addition to, and not as an alternative to revenue, operating income, net income or diluted EPS as measures of operating results, each as defined under GAAP, and (iii) use Free Cash Flow, in addition to, and not as an alternative to, net cash provided by operating activities as a measure of liquidity, each as defined under GAAP. Exhibit 4 includes a reconciliation of Revenue, Excluding Billable Expenses, Adjusted Operating Income, Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, Adjusted EBITDA Margin on Revenue, Excluding Billable Expenses, Adjusted Net Income, Adjusted Diluted EPS, and Free Cash Flow to the most directly comparable financial measure calculated and presented in accordance with GAAP.

With respect to our expectations under "Financial Outlook" above, a reconciliation of Adjusted Diluted EPS guidance to the closest corresponding GAAP measure is not available without unreasonable efforts on a forward-looking basis due to our inability to predict our stock price, equity grants and dividend declarations during the course of fiscal 2019. Projecting future stock price, equity grants and dividends to be declared would be necessary to accurately calculate the difference between Adjusted Diluted EPS and GAAP EPS as a result of the effects of the two-class method and related possible dilution used in the calculation of EPS. Consequently, any attempt to disclose such reconciliation would imply a degree of precision that could be confusing or misleading to investors. We expect the variability of the above charges to have an unpredictable, and potentially significant, impact on our future GAAP financial results.
