Booz Allen Hamilton Wins Contract to Support Federal Highway Administration Policy Initiatives

MCLEAN, Va.--(BUSINESS WIRE)-- Booz Allen Hamilton (NYSE: BAH) today announced it received a \$25.8 million award from the U.S. Department of Transportation (USDOT) to provide program and technical support to the Federal Highway Administration (FHWA) Office of Policy in coordination and management of its policy research and assessment. The Indefinite Delivery/Indefinite Quantity (IDIQ) contract, competitively awarded earlier this month, runs through June 2018.

The FHWA Office of Policy serves as the primary counselor on FHWA policy development and analysis. Booz Allen has been selected to support the FHWA mission by developing methods needed to formulate policy positions; developing and refining tools for the quantitative assessment of highway investment; enhancing FHWA's strategic plan and performance management process; designing household travel surveys; and researching international transportation innovations.

"With Booz Allen's advanced solutions and vision in analytic modeling, policy analysis and sustainable, intelligent and innovative transportation systems, we can help the FHWA prepare for a future with new and bigger infrastructure challenges," said Vice President [Brian Legan](#), Booz Allen Hamilton. "This win reinforces FHWA's confidence in our capabilities to provide critical, mission-focused policy support."

The contract expands Booz Allen's partnership with the USDOT and FHWA. Booz Allen also supports Intelligent Transportation Systems (ITS), Transportation Management and Operations, and Traffic Incident and Events Management programs. Earlier this year, USDOT awarded Booz Allen three five-year competitive contracts with a combined maximum value of \$102 million.
