## Air Force Selects Booz Allen to Support Test and Evaluation Center

### Booz Allen to Provide C4ISR Expertise: Builds upon 12 Years of Support For 96<sup>TH</sup> Test Wing

MCLEAN, Va.--(BUSINESS WIRE)-- The U.S. Air Force has selected Booz Allen Hamilton Engineering Services, LLC, a wholly-owned subsidiary of Booz Allen Hamilton, to provide complex technical support to the 96<sup>th</sup> Test Wing (96<sup>th</sup> TW) at Eglin Air Force Base, Florida. Under the terms of the \$53 million contract, Booz Allen will provide the 96<sup>th</sup> TW with Command, Control, Communications, Computers, Intelligence Surveillance and Reconnaissance (C4ISR) capabilities, as well as other technical, engineering and research management support.

The 96<sup>th</sup> Test Wing is the test and evaluation center for Air Force delivered weapons; navigation and guidance systems; Command and Control systems, and Air Force Special Operations Command systems. The wing provides expert evaluation and validation of the performance of systems throughout the design, development, acquisition, and sustainment process to ensure the warfighter has technologically superior, reliable, maintainable, sustainable and safe systems.

In addition, the 96<sup>th</sup> TW performs developmental test and evaluation across the complete system life cycle for a wide variety of customers including: Air Force Systems Program Offices, the Air Force Research Laboratory, logistics and product centers; major commands; other Department of Defense services and U.S. government agencies; foreign military sales, and private industry.

As part of its work for the 96<sup>th</sup> TW, Booz Allen will provide systems engineering support for all phases of technology transition of C4ISR from development through prototyping, sustainment, and test and evaluation. In addition, the work will involve capabilities related to Digital Video Exploitation and Analysis; 3D Visualization, and Sensors. Booz Allen's work will support the 96<sup>th</sup> TW in meeting the joint forces mission requirements. And, the Booz Allen team will assist in the management and systems engineering for Net Centric Warfare (NCW) support to the Joint Gulf Range Complex.

The contract is the latest win for Booz Allen's fast-growing Engineering Services practice, an award-winning team with the understanding, knowledge, and capability to ensure the 96<sup>th</sup> TW sustains momentum for critical network centric upgrades and other technical engineering innovations.

The win builds upon a 12-year partnership between the 96<sup>th</sup> TW and Booz Allen, during which the company has assisted 96<sup>th</sup> TW with C4ISR research, development and test initiatives.

"As the 96<sup>th</sup> Test Wing helps the Air Force deploy new technologies, we will work as an essential partner to help the TW do the same," said Lee Wilbur, a senior vice president with Booz Allen who leads the company's Engineering Services team. "This opportunity builds upon an enduring, productive relationship, while helping the 96<sup>th</sup> TW chart a bold, productive course for the future."

### About Booz Allen Hamilton

Booz Allen Hamilton is a leading provider of management consulting, technology, and engineering services to the US government in defense, intelligence, and civil markets, and to major corporations and not-for-profit organizations. Booz Allen is headquartered in McLean, Virginia, employs nearly 23,000 people, and had revenue of \$5.48 billion for the 12 months ended March 31, 2014. In 2014, Booz Allen celebrates its 100th anniversary year. To learn more, visit [www.boozallen.com](http://www.boozallen.com). (NYSE:BAH).
