Booz Allen Partners with the Volpe National Transportation Systems Center to Advance the FAA's NextGen Environmental Management System

McLean, VA — Booz Allen Hamilton (NYSE: BAH) announced it has been awarded a competitive \$9.7 million task order to support the U.S. Department of Transportation, Research and Innovative Technology Administration, Volpe National Transportation Systems Center (Volpe Center) in the development of the Federal Aviation Administration's (FAA's) Next Generation Air Transportation System (NextGen) Environmental Management System (EMS).

Under the terms of the task order, Booz Allen will continue to partner with the Volpe Center in delivering innovative environmental solutions to reduce aviation's impact to the environment.

"Overcoming aviation's environmental challenges requires the cooperation of diverse stakeholders including airports, airlines, manufactures, regulators, policy-makers, NGOs, and passengers" said Booz Allen Senior Vice President Doug Lane. "Booz Allen's FAA experts specialize in addressing the complex system-wide stakeholder relationships that are key to helping the FAA accomplish its NextGen implementation and integration objectives."

Booz Allen will support the Volpe Center and the FAA in developing and implementing an EMS framework that is flexible, information driven, adaptive and efficient. The EMS framework will be a catalyst for stakeholder cooperation and help ensure that environmental protection is built into the operational aspects of NextGen.

This press release contains, or may be deemed to contain, "forward-looking statements" (as defined in the U.S. Private Securities Litigation Reform Act of 1995). Examples of forward-looking statements include information concerning the value of the contract award and Booz Allen Hamilton's future performance under the contract. These statements give Booz Allen Hamilton's current expectation of future events or its future performance and do not relate directly to historical or current events. A number of factors could cause Booz Allen Hamilton's future actions and related results to vary from any expectations or goals expressed in, or implied by, the forward-looking statements included in this press release, possibly to a material degree. Some of these factors include, but are not limited to, the risk factors set forth in Booz Allen Hamilton's Annual Report on Form 10-K, filed with the Securities and Exchange Commission on June 8, 2011. All forward-looking statements included in this press release speak only as of the date made, and, except as required by law, Booz Allen Hamilton undertakes no obligation to update or revise publicly any such forward-looking statements, whether as a result of new information, future events, or otherwise.
