</table>
Certain statements contained in this presentation and in related comments by our management include “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Examples of forward-looking statements include information concerning Booz Allen’s preliminary financial results, financial outlook and guidance, including forecasted revenue, future quarterly dividends, Adjusted EBITDA and future improvements in operating margins, as well as any other statement that does not directly relate to any historical or current fact. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “could,” “should,” “forecasts,” “expects,” “intends,” “plans,” “anticipates,” “projects,” “outlook,” “believes,” “estimates,” “predicts,” “potential,” “continue,” “preliminary,” or the negative of these terms or other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we can give you no assurance these expectations will prove to have been correct.

These forward-looking statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. A number of important factors could cause actual results to differ materially from those contained in or implied by these forward-looking statements, including those factors discussed in our filings with the Securities and Exchange Commission (SEC), including our Annual Report on Form 10-K for the fiscal year ended March 31, 2021, which can be found at the SEC’s website at www.sec.gov. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the foregoing cautionary statements. All such statements speak only as of the date made and, except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Booz Allen discloses in the following presentation Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, Adjusted Diluted EPS, Free Cash Flow and Free Cash Flow Conversion, which are not recognized measurements under the U.S. Generally Accepted Accounting Principles (GAAP), and when analyzing Booz Allen’s performance or liquidity, as applicable, investors should (i) evaluate each adjustment in our reconciliation of net income to Adjusted EBITDA, Adjusted EBITDA Margin on Revenue and Adjusted Diluted Earnings Per Share, and net cash provided by operating activities to Free Cash Flow Conversion and Free Cash Flow, and the explanatory footnotes regarding those adjustments, each as defined under GAAP, (ii) use Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, and Adjusted Diluted EPS in addition to, and not as an alternative to, revenue, net income or diluted EPS as measures of operating results, each as defined under GAAP, and (iii) use Free Cash Flow Conversion and Free Cash Flow in addition to and not as an alternative to net cash provided by operating activities as a measure of liquidity, each as defined under GAAP. We have included herein a reconciliation of Adjusted EBITDA, Adjusted EBITDA Margin on Revenue, Adjusted Diluted EPS, Free Cash Flow Conversion and Free Cash Flow to the most directly comparable financial measure calculated and presented in accordance with GAAP. Booz Allen presents these supplemental performance measures because it believes that these measures provide investors and securities analysts with important supplemental information with which to evaluate Booz Allen’s performance, long-term earnings potential and to enable them to assess Booz Allen’s performance on the same basis as management. These supplemental performance and liquidity measurements may vary from and may not be comparable to similarly titled measures by other companies in Booz Allen’s industry. With respect to our expectations for FY22-25, reconciliation of Adjusted Diluted EPS guidance to the closest corresponding GAAP measure is not available without unreasonable efforts on a forward-looking basis due to our inability to predict our stock price, equity grants and dividend declarations during the course of fiscal 2022-2025, projecting future stock price, equity grants and dividends to be declared would be necessary to accurately calculate the difference between Adjusted Diluted EPS and GAAP EPS as a result of the effects of the two-class method and related possible dilution used in the calculation of EPS. Consequently, any attempt to disclose such reconciliation would imply a degree of precision that could be confusing or misleading to investors. We expect the variability of the above charges to have an unpredictable, and potentially significant, impact on our future GAAP financial results. For the same reason, a reconciliation of Adjusted EBITDA and Adjusted EBITDA Margin on Revenue guidance to the closest corresponding GAAP measure is not available without unreasonable efforts on a forward-looking basis due to our inability to predict specific quantifications of the amounts that would be required to reconcile such measures.

GROWTH-ORIENTED INVESTMENT SPEND
EXPECTED TO DRIVE FY23-25 ADJUSTED EBITDA MARGINS INTO THE MID-10s RANGE

FY18–FY22 Adjusted EBITDA Margin Drivers

• Better underlying contract and cost management
• Improved margins on all contract types and in all markets

FY23–FY25 Adjusted EBITDA Margin Drivers

• Growth-oriented investment spend
• Continued improvement in underlying contract and cost management
• Market mix and non-labor contribution

Accelerating Adjusted EBITDA Margins and Ability to Drive Margins When Needed

FY18 to FY21
CAGR 12.8%
Positive mix shift and cost containment will support incremental investment in the business at sustained mid 10s margins.

Capital Deployment and TSR Performance Since IPO

To Deliver Shareholder Value
SUFFICIENT BALANCE SHEET CAPACITY AND FLEXIBILITY TO EXECUTE CAPITAL DEPLOYMENT STRATEGY

- Accelerating revenue growth to drive EBITDA
- Ample room relative to net operating leverage target of ~3.0x–3.5x
- No near-term maturities or financing requirements
- Current capital structure mix as of Q1 FY22:
  - ~66% fixed debt, including swaps
  - ~58% flexible, pre-payable debt
  - ~$1.6B of total liquidity: cash balance of $621M + revolver availability of $1.0B

*From time to time, we evaluate conditions in the financing markets for opportunities to improve the terms of our indebtedness or obtain additional debt financing. Such amendments could include a reduction of the effective interest on our outstanding indebtedness, improvements to the covenants, extension of maturity dates, increases to borrowing capacity under our Credit Agreement and other provisions governing our outstanding indebtedness. Funds obtained from any additional financing may be used to, among other things, finance share repurchases.*
CAPITAL DEPLOYMENT PRIORITIES

Free Cash Flow Generation
Balance Sheet Capacity

Ability to deploy $3.5–4.5B in capital by FY2025

M&A Repurchases
Dividends Other

Continue to maintain flexible posture but prioritizing strategic M&A to drive growth
ACCELERATING OUR CLIENTS’ MISSIONS

- **Tracepoint**
  - September 2021, undisclosed Incident Response (IR)

**Tracepoint**

- Strategic Channels
- Leading Capabilities & Talent
- Attractive Financials

Tracepoint is a leading Incident Response platform that complements and scales our cyber portfolio and position.

**Liberty IT Solutions**

- Top Low-Code No-Code Provider
- Rapid Growth Trajectory
- Attractive Financials

Liberty IT’s past performance, channels, and talent catapults Booz Allen to a leader in federal IT transformation.
INVESTMENT THESIS
EXCEPTIONAL SHAREHOLDER VALUE CREATION
FY2023–FY2025 GOALS

ADJUSTED EBITDA GROWTH TO $1.2 – 1.3B

Competitive Edge at the Mission-Innovation Intersection

Organic Revenue 5–8% + Strategic Acquisitions & Investments + Strong Mid 10% Adjusted EBITDA Margin

Disciplined Capital Deployment $3.5 – 4.5B
"Revenue, Excluding Billable Expenses" represents revenue less billable expenses. We use Revenue, Excluding Billable Expenses because it provides management useful information about the Company's operating performance by excluding the impact of costs that are not indicative of the level of productivity of our consulting staff headcount and our overall direct labor, which management believes provides useful information to our investors about our core operations.

"Adjusted EBITDA" represents net income before income taxes, net interest and other expense and depreciation and amortization and before certain other items, including financing transaction costs, supplemental employee benefits due to COVID-19, and acquisition costs. "Adjusted EBITDA Margin on Revenue" is calculated as Adjusted EBITDA divided by revenue. We prepare Adjusted EBITDA and Adjusted EBITDA Margin on Revenue to eliminate the impact of items it does not consider indicative of ongoing operating performance due to their inherent unusual, extraordinary or non-recurring nature or because they result from an event of a similar nature.

"Adjusted Net Income" represents net income before: (i) acquisition costs, (ii) financing transaction costs, (iii) supplemental employee benefits due to COVID-19, (iv) release of income tax reserves, (v) research and development tax credits, (vi) remeasurement of deferred tax assets/liabilities, (vii) loss on debt extinguishment, and (viii) amortization or write-off of debt issuance costs and debt discount, in each case net of the tax effect where appropriate calculated using an assumed effective tax rate. We prepare Adjusted Net Income to eliminate the impact of items, net of tax, we do not consider indicative of ongoing operating performance due to their inherent unusual, extraordinary, or non-recurring nature or because they result from an event of a similar nature. We view Adjusted Net Income as an important indicator of performance consistent with the manner in which management measures and forecasts the Company's performance and the way in which management is incentivized to perform.

"Adjusted Diluted EPS" represents diluted EPS calculated using Adjusted Net Income as opposed to net income. Additionally, Adjusted Diluted EPS does not contemplate any adjustments to net income as required under the two-class method as disclosed in the footnotes to our consolidated financial statements in our Form 10-K for the fiscal year ended March 31, 2021.

"Free Cash Flow" represents the net cash generated from operating activities less the impact of purchases of property, equipment, and software. “Free Cash Flow Conversion” is calculated as Free Cash Flow divided by Adjusted Net Income.

</tbody>
</table>

(a) Reflects the combination of interest expense and Other income (expense), net from the consolidated statement of operations.
(b) Reflects expenses associated with debt refinancing activities incurred during fiscal 2019 and 2020.
(c) Reflects the supplemental contribution to employees’ dependent care FSAs accounts in response to COVID-19.
(d) Represents certain costs incurred related to acquisition efforts of the Company, including legal and other professional fees.
(e) Reflects tax credits, net of reserves for uncertain tax positions, recognized in fiscal 2021 and 2020 related to an increase in research and development credits available for fiscal years 2016 to 2019 and fiscal years 2016 to 2020, respectively.
(f) Release of pre-acquisition income tax reserves assumed by the Company in connection with the Carlyle Acquisition.
(g) Fiscal 2021 reflects the income tax benefit associated with tax losses generated during fiscal 2021 as a result of a change in certain tax methods of accounting. The Company intends to carry these losses back to fiscal 2016 and subsequent periods under the Coronavirus Aid, Relief and Economic Security Act and has re-measured the fiscal 2021 loss accordingly. Fiscal 2019 and 2018 reflect the adjustments made to the provisional income tax benefit associated with the re-measurement of the Company’s deferred tax assets and liabilities as a result of the Tax Cuts and Jobs Act.
(h) The fiscal 2018 adjustment is reflected using an assumed effective tax rate of 36.5% and fiscal 2019, 2020, and 2021 adjustments are reflected using an assumed effective tax rate of 26%, which approximate the blended federal and state tax rates, and consistently excludes the impact of other tax credits and incentive benefits realized.
(i) Reflects the loss on debt extinguishment resulting from the redemption of Booz Allen Hamilton Inc.’s 5.575% Senior Notes due 2025 (the “2017 Senior Notes”), including $6.0 million of the premiums paid at redemption, and write-off of the unamortized debt issuance cost.
(j) Excludes adjustments associated with the application of the two-class method for computing diluted earnings per share.
